The collection “ ELLIPSE” evokes the atmosphere of 60es and with its bold pattern is very suitable for commercial areas and modern interiors. Big patterns situated on one wall, or only a few wallpaper bands put up on the wall, look as a picture. It also looks elegant if you put up this wallpaper on one wall, and on the other walls, you put up wallpaper with the same background, or the stripes.

For putting up the wallpaper, we recommend the Beeline adhesive.
